DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-11, 13, 14, 16, 17, 25, and 29 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Winskowicz (6,358,160). Winskowicz discloses a golf ball comprising a surface with indicia and a coating (masking layer) over the surface. Once the coating is penetrated the indicia will appear on the surface (fig 9). The indicia indicates the ball has been exposed to water and has changed characteristics. With respect to claims 2-5, the coating layer obviously includes all the limitations when exposed to water. The coating layer also includes a water activated binder since it is capable of being penetrated by water.

Allowable Subject Matter

Claims 12, 15, 18-24, 26-28, 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-30 have been considered but are moot in view of the new ground(s) of rejection.
